

MURDER OF  
GENERAL MINCzar's Adjutant Shot to Death  
by Girl

## KILLED AT STATION

By the Side of His Wife and Child  
Mme. Min Seizes Assassin Who  
Had Bomb With Her

St. Petersburg, Aug. 27.—Saturday's unsuccessful attempt on the life of Premier Stolypin with its sickening, useless slaughter of 32 persons, was followed last night by another outrage, in which Gen. Min, commander of the Semenovsk guard regiment, who since his promotion has been attached as a personal adjutant to the suite of the Emperor, was killed on the station platform at Peterhof by a young woman who fired five shots into his body from an automatic revolver. The capture of the girl was effected by Gen. Min's wife, who held her until the arrival of an officer.

This was the third successive attempt on the life of Gen. Min, who was condemned to death by the terrorists immediately after the Moscow revolt last December on account of the stern repression practised by a battalion under his command, and especially for the wholesale execution of persons condemned by drumhead court-martial for being caught with arms in their hands. Gen. Min was returning from the capital to his summer residence at Peterhof, and had just greeted his wife and daughter on the platform when a young woman—almost a girl—approached from behind and fired two shots into his back, and then three more into his body as it sank to the ground. Further shots were prevented by Mme. Min, who threw herself upon the murderer and seized the hand which held the pistol.

Had Bomb With Her Also.  
The woman did not attempt to escape, but she cautioned Mme. Min not to touch a handbag which she had placed on the platform before shooting. It contained a bomb. To the police the girl acknowledged that she had done the deed, saying she had executed the sentence of the fighting organization of the social revolutionists, but she refused to give her name.

## Girl Bomb Carrier Loses Her Hand.

Odesa, Aug. 27.—Late Saturday evening a girl dropped a bomb in the Nicholas boulevard, fifty paces from the palace of Governor General Kaulbars. There was a deafening explosion and a wild stampeding of the promenaders. No one was injured except the girl who dropped the bomb, whose hand was shattered.

It is supposed that the bomb accidentally fell from her hand before she had reached the entrance to the palace. She and another girl and a university student who was accompanying them were arrested.

## AUTOS FOR STREET CARS.

Railway Men Strike and Automobiles  
Do Good Business.

San Francisco, Cal., Aug. 27.—With the exception of the California and the Geary street lines, street railway traffic here was suspended yesterday as the result of a strike for higher wages by conductors and motormen of the united railways' system. The strike went into effect yesterday morning. There was no disorder. Further action in the strike awaits the arrival today of Patrick Calhoun, president of the United Railways investment company. Automobiles and other vehicles were used yesterday and they did a good business.

Although the California and the Geary street lines were in operation, their limited equipment was inadequate. The employees of these two lines will not be called out, but they expect their employers to follow the lead of the larger company in any change that may be made in the wage scale.

## REBUILDING CITY.

Chilean Government Presents a Project  
for a Better Valparaiso.

Valparaiso, Aug. 27.—The government has drawn up and presented a project for the reconstruction of Valparaiso. In order to prevent the flooding of streets they will have a uniform level. The minimum width of streets, without counting sidewalks, will be 15 metres. The government will pay cash for lands appropriated for this purpose and will facilitate loans to owners of lands thus taken. Customs duties will be suspended for 18 months on construction material.

The construction by dynamite of menacing buildings is bringing out protests. The houses and commercial houses are not yet doing business and because of a lack of money, the banks are forced to continue limited payments. A state of siege continues here and nobody is allowed on the streets after 6 p. m.

There have been some accidents as a result of use of dynamite in the blowing up of damaged buildings.

President Illaso has replied to an offer of the European banking firm of Rothschild to help sufferers from the earthquake, saying that he hopes Chilean resources will be sufficient for this purpose.

The weather here is fine.

## BANK'S FAILURE A SECRET.

President Hinkley Dead and Did Not  
Know of Collapse.

Boston, Aug. 27.—Sylvester B. Hinkley, president of the First National bank of Chelsea, which closed its doors August 17, died yesterday in his home at Newton, in his 65th year. President Hinkley had been ill for several months with liver trouble, and death had been expected for the last few days. He died without having been advised of the failure of the banking institution, of which he had been president for six years.

President Hinkley was a large stockholder and closely identified with the management of the bank, and when it was closed a week ago Friday by Bank Examiner Ewer, it was announced that a failure had resulted from heavy loans to Mr. Hinkley on real estate held by him, and that the directors had been unable to realize on his property. The bank's failure was kept a secret from the dying president.

BERRY KILLS WIFE  
AND TRIES SUICIDEWilliamstown, Mass., Laborer Will Probably  
Live—Quarrel Over Money

Williamstown, Mass., Aug. 27.—William B. Berry, 49, shot and instantly killed his wife, Mary, late last night at their home in this town. He then turned the revolver upon himself, and as a result is now in the North Adams hospital with a dangerous bullet wound in his head. It is expected, however, that he will recover.

The murder was discovered by his stepdaughter, who returned home after completing her day's work at Sand's Springs Hotel, where she was employed. The mother was found on the kitchen floor with a bullet hole through the heart. Berry was upstairs on a bed, and was not found until some few minutes later.

The girl notified Dr. Nelson, who lives a short distance away. He said Mrs. Berry had been dead some time. Medical Examiner Browne of North Adams was summoned, and in the meantime Berry had been found, and his wound was cared for. He was bleeding severely when discovered. After shooting himself he had placed the revolver, of 32 calibre, in the bottom of an old trunk in his room. Only two chambers had been discharged.

He refused to give any reason for the shooting, but it is understood the couple had quarrelled on several occasions on financial matters. Mrs. Berry was his second wife and the couple were married about six years ago. Berry is a day laborer and is given to drink.

## "DRAGO DOCTRINE IMPOSSIBLE."

Europe Cannot Accept It, Says Popolo  
Romano.

Rome, Aug. 27.—The semi-official Popolo Romano Saturday devoted a leading article to the international American conference at Rio Janeiro, during the course of which it says:

"No European country can object to Monroeism, but nobody will admit the Drago doctrine, which means that Latin America can contract debts in Europe and not pay them. Such a doctrine needs cannot to support it. It does not complete the Monroe doctrine, but compromises it."

In conclusion, the paper praises Secretary Root for his attitude of reserve on the subject.

## BOMB KILLS TWO AT BENZIN.

Soldiers in Turn Fire Indiscriminately,  
Killing or Wounding a Score.

Warsaw, Aug. 27.—A bomb was thrown Saturday morning at a patrol commanded by Police Capt. Jakubik at Bendzin, Poland, and, exploding, tore two policemen to pieces and wounded 10 other persons. The bomb evidently was intended for Jakubik, who commanded a patrol which on Monday last killed a Jew. A detachment of soldiers attracted to the scene of the explosion fired indiscriminately in all directions, killing or wounding a score of persons. The explosion of the bomb destroyed the district police station.

The present indications point to a large entering class at the University of Vermont, Burlington, this year. At the entrance examinations given in June there were 35 candidates for admission, and about 25 of the graduates of the Burlington high school in the class of 1906, with a few from former classes, intend to enter the university. Last year the entering class numbered about 120 and this fall the number will probably be larger.

A village improvement society has been organized in Irasburg.

SEEMS TO BE  
RESTINGInsurgents Evidently Waiting  
For Government

## TO MAKE NEXT MOVE

Which Will Determine Whether There  
Is to Be Peace or War in  
Cuba — No Fighting  
Today.

Havana, Aug. 27.—The revolution in Cuba seems to be resting. The insurgents are evidently waiting for the Government to make the next move which will determine whether there is to be peace or war. The insurgents want the former elections nullified. No fighting was reported this morning.

## OPPOSE AMNESTY.

That Step Considered by President Palma  
to Obtain Peace of Cuba.

Havana, Aug. 27.—The deep anxiety of President Palma to extend every possible opportunity for peace without bloodshed, and his desire to permit those who joined the insurrection under misguidance to repent and return to their homes unmolested, combined with the general wish to end a situation fraught with so much loss and suffering, has led to consideration by the President and his cabinet of a project decreeing a 30-day amnesty period, during which the insurrectionists are invited to lay down their arms and return to their peaceful pursuits. It was proposed to issue the decree today, but persons close to the President strongly opposed the measure and the matter was deferred, and may be relinquished.

General Montalvo, who is acting secretary of the interior, on leaving the President last night said that at present there was no intention to issue an amnesty. Font Sterling, secretary of the treasury, said the matter was not being seriously considered and other friends of President Palma declared it would be an unwise move.

So far as actual conflict went, Sunday proved to be a day of inactivity, but preparations proceeded without abatement. A fund of \$2,000,000 has been set aside by the treasury for defence and drafts on it are heavy and constant.

LOCOMOTIVE BOILER  
EXPLODED KILLING TWOTrain Ran on Powerless to Stop—Narrow  
Escape for Eye Witnesses—  
Engineer and Fireman Killed.

Little Falls, N. Y., Aug. 27.—The boiler of freight locomotive No. 2473 of the New York Central & Hudson River railroad, exploded just west of here yesterday, causing the death of Engineer Charles Wagner of Albany and Fireman Edward Hall of Oneida. The locomotive was drawing a heavy eastbound freight and had just passed over the bridge when the explosion occurred. The boiler was thrown from the tracks high in the air and landed on its end 100 feet away, blocking all four tracks of the road. A freak of the explosion was that neither the driving wheels nor tender of the engine was thrown from the tracks, but ran on with the train for a quarter of a mile.

Engineer Wagner was thrown from the cab and struck on the rails of the passenger track. Death was almost instantaneous as his skull was frightfully crushed. Fireman Hall was thrown out of the cab on the other side of the engine and his back was broken. He was removed to the Herkimer hospital where death soon resulted.

Eye witnesses of the accident had narrow escapes from being injured by flying pieces of iron. One piece of the locomotive was hurled a quarter of a mile and knocked down a telephone line. The engine had just taken water at Herkimer.

Providence, R. I., Aug. 27.—A touring automobile containing seven persons was run down by a suburban trolley car at Lakewood, a few miles south of here last yesterday, and the chauffeur, named Oliver Labelle, of New Bedford, Mass., was instantly killed and liquor inspector Aime E. Frazeeau of Fall River, the owner of the machine, was probably fatally injured, while George J. Paquette of Fall River, was seriously hurt. The other occupants of the touring car escaped injury, though the machine was completely wrecked.

The party consisted, besides those mentioned, of Mrs. Frazeeau, wife of the inspector, and their 9-year-old daughter, with their guests, Mr. and Mrs. Samuel Frazeeau of Canada. They were on the way to Providence, and when they reached the crossing of the Providence-Buttrick trolley line, were held up by a flagman.

## CHILD BURNED TO DEATH.

Had Been Playing in Barn With Sister,  
Who Had Matches.

Enosburgh Falls, Aug. 27.—Dorothy, the two-year-old daughter of Mr. and Mrs. H. J. Cavanagh, was burned to death Saturday afternoon in a barn on their farm, which is located about five miles from this village on the road from Enosburgh Center to East Berkshire.

During the afternoon the eldest of the three children came running into the house and announced that she had been playing with matches in the barn and had set the hay on fire. Mr. Cavanagh was at the Falls at the time and Mrs. Cavanagh was alone with the children. The barn was by this time hopelessly in flames, and Mrs. Cavanagh was distracted when she could not find Dorothy. When there was nothing left but ashes of the barn the bones of the little girl were discovered in such a position as to indicate that she perished by a door which she was unable to open.

Mr. Cavanagh had an insurance of \$1,000 on his barn, tools and crops. Some of the tools were saved, but the loss is nearly total and the insurance will be but a slight remuneration.

## STRICKEN WITH PARALYSIS.

Burlington.

Burlington, Aug. 27.—E. M. Wiltzie, a popular traveling salesman of Albany, N. Y., is critically ill at the Hotel Burlington, suffering from a stroke of paralysis which he received Saturday morning. Medical assistance was called at once and he was taken to his room. The case was pronounced paralytic. The man's left side is affected and he cannot speak, although he is apparently conscious.

Telegrams were sent at once to Mr. Wiltzie's relatives and his wife and son-in-law, Harmon J. Patrick, of Cohoes, N. Y., reached this city on the late train Saturday night. Dr. G. M. Sabin is the attending physician.

FINDS A BURGLAR  
IN HIS KITCHENSuperintendent Burke of the Cooper  
Manufacturing Company Hesitates  
to Attack, and the Man  
Flees.

Bennington, Aug. 27.—J. E. Burke, superintendent of the Cooper manufacturing company, while seated in his sitting room reading about 1 o'clock yesterday morning, heard an unusual noise in the rear of the house and on turning on the electric light in the kitchen he discovered a man behind a door leading up stairs.

Mr. Burke asked him what he was doing, but he made no answer. He was a slender-built fellow, had on no shoes or stockings, a pair of linen pants turned up over his knees, a shirt, the sleeves turned up, and a skull cap. Burke had no weapon with him and although he has quite a reputation as an expert, did not want to clash with the man, who kept his right hand continually behind him.

While Burke was trying to get into a position where he could attack him, the burglar jumped head first through the window by which he had entered and made his escape. Mr. Burke cannot recall ever having seen him before. Saturday was pay day at the mill, and it is thought that the fellow expected to find money.

This is the third house that has been entered within 10 days and attempts have been made to enter three others, which were not successful.

SHOT IN  
SELF DEFENSEAttacked by Two Blanchard  
Brothers.

## GEORGE NILES SHOT THEM

He Had Warned Them Off — Trouble  
Arose Over Niles' Sister at  
Blanchard Boys' Sister at  
Springfield.

Springfield, Aug. 27.—George Niles, expert electrician for the Springfield electric railroad, fired three effectual shots for self-defense into Alfred and Frank Blanchard, at his home yesterday afternoon. The Blanchards are brothers of the young lady to whom Niles has been attentive and trouble had been caused between them.

The Blanchards assaulted Niles while reading in his parlor and a fierce fight resulted. Niles was nearly choked to death and warned them off, but to no effect, and as they sprang for him the second time he fired three shots, all taking effect.

After the shooting Niles notified by telephone Justice of the Peace M. L. Lawrence and a deputy sheriff, who came and arrested him.

It is not thought that the wounds of either of the brothers will prove fatal. Andrew was shot in the abdomen, the bullet passing into his thigh, while Frank received a bullet in each leg. According to the story of Niles, the Blanchards, who were apparently under the influence of liquor, entered the house where all three boarded and created a disturbance. Niles ordered them to depart, and he says that they then attacked him, whereupon he secured a revolver and fired in self defense.

## THE LUCKETT CASE.

More Recent Information Shows He Was  
Not Guilty of Intentional Wrongdoing.

More recent information from Brookline, Mass., reveals the fact that W. H. Lockett was not guilty of intentional wrongdoing. He had committed a nuisance in a public park and was discovered by some women passing. "Taking him to be the 'wild man' about which so much had been heard, they screamed. A policeman escorted him to the police station and an explanation being made he was fined only for breaking a park regulation. For the past two months someone has been frightening women in the park, but insofar as it had been happening for the past two months and long before Mr. Lockett went to Brookline, the police became convinced it was not him, and he was allowed to go free of that charge. Mr. Lockett's good reputation here will help to the belief in his innocence.
